EXPERIENCE

CLT S.A., Asunción — Back End Developer

DECEMBER 2021 - PRESENT

CLT S.A. is a partner company of Banco Continental, where I currently have an office. There I carry out the development and maintenance of services of integration of customer data and movements that it performs through its cards.

Technologies Used: Oracle, C#, ASP .Net, HTML, CSS, JS, Git, Microsoft Azure

Paseo La Galería, Asunción — Tech. Maintenance

OCTOBER 2017 - NOVEMBER 2021

General maintenance technician, in charge of predictive, preventive and corrective maintenance in the different areas within the shopping center and towers.

Technologies Used: Language C, MATLAB, Electrical engineer knowledge.

Freelancer, Asunción — Freelancer

MAY 2020 - PRESENT

Since 2020 I set out to start my own parallel business independently, where I work developing small projects, either for personal use or for third parties who need applications (web, mobile, desktop) for their small ventures.

Technologies Used: Node JS, Bootstrap, Angular, GitHub, Mongo.

EDUCATION

SNPP(CTFP-PJ), San Lorenzo — Higher Technician in Industrial Mechatronics

DECEMBER 2014 - MARCH 2017
